General Information
What is MicroStrategy?
MicroStrategy is a web-based reporting tool that pulls information from the Data Marts that houses Banner and RAMP data. The Data Marts are refreshed every night and the report will be current as of the most recent refresh.

Accessing Reports
1. Enter the following url: http://reporting.gmu.edu/
2. Click “Log in to MicroStrategy”
3. Enter User name = NetID
4. Enter Password = LDAP Password
5. Click “Login”

CURRENT

Report Name: Current Awards (grid)
Path: Patriot Reporting > Shared Reports > Research > Research by PI/CoPI
Current Awards report pulls data from Banner. It provides a prompt to select award status (select Active for Current). Once the report runs, the person’s name is in the page-by dimension of the report to drop-down select and see all awards where that individual is serving as either a PI or CoPI on the award.

The report shows person’s name and their role on the award. It also includes descriptive data related to the fund/grant.

PENDING

Report Name: Research Proposals (dossier)
Path: Patriot Reporting > Shared Reports > Research > Research Proposals
Chapter: Proposals Submitted
Page: By Person, Proposal Number
Pending report pulls data from RAMP (alongside historical data from PODS). It provides proposal data by person selected that are in a Submitted status (Submitted is equivalent to Pending for Current & Pending reporting). There are optional prompts to query based on Start/End Dates, L3 Division, L6 Org, Proposal Number, Person Name, Person Role, and/or Sponsor.

The report shows the effort by the person on the proposal, as well as the amount requested for the proposal. The effort reflected is annualized for 9-month faculty. It includes other descriptive data related to the proposal.
